

Version 43 - Bug fixes

Data: 26.05.21.

In this release, we focused on fixing many bugs. The list of fixes is presented below:

1. Fixed the bug, that appeared during recalculating the loyalty program.
2. Fixed the situation, when an employee without the "Superadmin" status, had the opportunity to delete the account of the employee, which has the "Superadmin" status in the admin panel.
3. Fixed the situation when the status of a subscription was not updated after adding changes to it.
4. Fixed the bug when not all PC statuses were displayed on the club map.
5. Fixed the bug, related to replacing PC statuses on the club map.
6. Fixed the situation where a clubs' filter did not work in the session history tab.
7. Fixed the bug, that displayed in the client part after deleting the content card from favorites.
