

# Version 42 - CAP elements update

Date: 13.05.21.

## NEW FEATURES

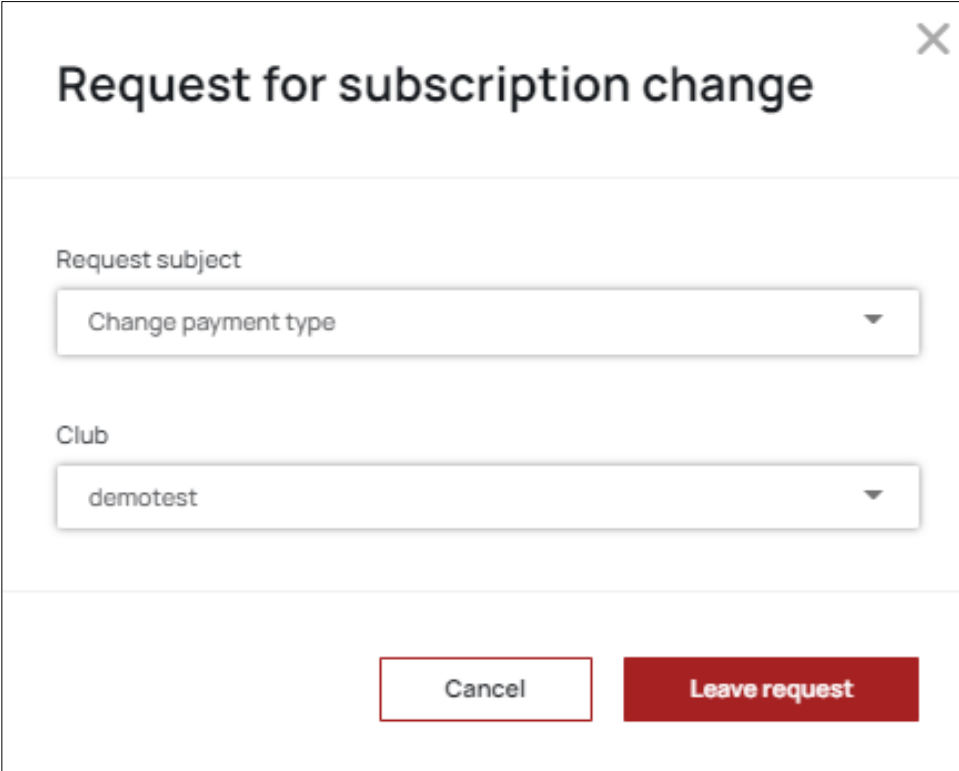

### 1. Description of parameters in the CAP.

We try to make the admin panel intuitive for users, so we continue to add descriptions for some of the parameters. Below are several examples of them.

## ***2. Modernization of the dialog box in the "Help" menu.***

In the “Help” menu, which is in the “Settings” section, we have updated the format of the dialog box that opens after clicking the "Leave request" button.

The image shows a dialog box titled "Request for subscription change" with a close button (X) in the top right corner. Below the title, there are two dropdown menus. The first is labeled "Request subject" and has the value "Change payment type". The second is labeled "Club" and has the value "demotest". At the bottom of the dialog, there are two buttons: "Cancel" and "Leave request".

## **IMPROVEMENTS**

### ***1. Optimization of long names displaying in the CAP.***

Usernames or the name of the rate/ticket, which contain more than 25 characters and go beyond the modal windows on the club map, are now displayed with three dots at the end.

## **BUG FIXES**

1. Fixed the situation when the wrong knowledge base page opens after clicking on the Help Center menu in Zendesk in the "Settings" section.
