# Version 44 - Management of torrents

Date: 08.06.21.

NEW FEATURES

1. Working with torrents has become much easier.

Now you can create torrents not only before the file transfer itself but also beforehand. Go to the "Torrents" tab, which is in the "Content" section (this tab is displayed only for those clubs, which have the option of files/folders transferring from a PC activated). To create a new torrent, click on the "Add torrent" button and in the opened window specify the name of the torrent, select the PC number, where the file/folder is located, and indicate the path to it.

After successfully torrent creating, it will display in the general list. If you create the torrent on the club map and activate the "Save torrent after distribution" parameter, it will also be added to this list. You can edit it's name by clicking on the saved torrent (the path and PC, where the file/folder is located, will not be available for editing).

Also, during transferring a previously added torrent, the save path will be pulled up automatically with the ability to edit it.

In addition, to delete a torrent, you no longer need to contact our support team. You can do it on your own - just click on the "Bin" next to the desired torrent.

Content

Torrent name	№ PC	File/folder path	Torrent update	Conservation status	
Origin	1	C:\Program Files (x86)\Origin	6/8/2021, 3:01 PM	Completed	🗑
League	2	D:\games	9/29/2020, 2:36 PM	Error	🗑
Valorant	2	D:\games	9/29/2020, 2:34 PM	Error	🗑

2. New access rights.

Added a new access right to the "Torrents" tab, with which you can restrict the possibility of preliminary creation of torrents by club employees.

IMPROVEMENTS

1. New data in X- and Z-reports.

For effective analysis of the results of a cashdesk session, the X-report and Z-report will contain information about the withdrawal funds, the sum of sold goods and services.

X-Report
demotest

Cashier	admin
Session	98
Start	13:17 09.06.21
End	13:20 09.06.21
Amount:	
- cash	29.00 USD
- cashless	35.00 USD
- refund	0.00 USD
- cancel	0.00 USD
Cash entry	75.00 USD
Cash withdrawals	-50.00 USD
Total amount	**89.00 USD**

Item name	Sold	In stock
M&m's	1	0
fanta	1	4
Skittles	2	3

The total amount of goods sold	24.00 USD
Total amount of services sold	15.00 USD

13:20 09.06.21

Z-Report
demotest

Cashier	admin
Session	98
Start	13:17 09.06.21
End	13:21 09.06.21
Amount:	
- cash	29.00 USD
- cashless	35.00 USD
- refund	0.00 USD
- cancel	0.00 USD
Cash entry	75.00 USD
Cash withdrawals	-50.00 USD
Total amount	**89.00 USD**

Item name	Sold	In stock
M&m's	1	0

Skittles	2	3

The total amount of goods sold	24.00 USD
Total amount of services sold	15.00 USD

13:21 09.06.21

2. Improvements in the office load report.

A new column "Ticket price" has been added to the office load report, which shows at which cost the ticket was sold, considering all discounts. This information will help you to analyze the cost of renting a PC with the ticket more conveniently.

3. Removed the date of news publication.

Now, club news in the client shell display without a publication date.

BUG FIXES

1. Fixed the bug, related to the wrong period displaying during receiving club load statistics.
2. Fixed the incorrect displaying of the long torrent name on the club map in a PC update history.
3. Fixed the incorrect displaying of the long username during replenishing it's balance in a cashdesk.
4. Fixed the bug with displaying a scroll in the "Reservation" section.
5. Fixed the situation, when data in tickets by zones report was duplicated for the same time period.
6. Fixed the situation when it was not possible to change the background image of the client part in the admin panel.
7. Fixed the error that displayed during news adding.
